St Michael's Fortress (15th Century), (265 m above sea level). This is the most attractive sight on the island of Ugljan. There is a four km long asphalt road that leads through agricultural heritage (olive oil groves) to the top of the hill and fortress. The view from the fortress spreads over more than 200 islands of the archipelago of Zadar and Kornati National Park.

Leave natural, historical, and archeological items in place. Collecting natural or archeological objects, or removing, defacing or destroying any plant, animal, or mineral is prohibited.

TOP THINGS TO DO

There are so many amazing possible activities to enjoy on the island during your summer holidays that we have put together a list for you of our favourite things to do – so you don't miss out on anything. Enjoy Ugljan Island!

Salt Lake, or a gourmet experience in one of the plenty of interesting restaurants where offering delicious cuisine, are just some of the possible excursions to tempt you to leave the beach for a different day out.

fun for all the family. There are bountiful opportunities for climbing, hiking and cycling.

See the island from the sea - You'll enjoy a completely different perspective of the island when you see the island from a boat out at sea. To do this in style, you can rent a sail or motor boat for a day, or charter a vessel for longer.

Swoon over a sunset - It happens every day, but how many of us make time to simply sit and watch the sun go down? Doing so can be even more memorable when you add a bottle of wine and a picnic. Head up to the Saint Michael Fort in Preko for a dazzling view of the sun slipping into the Adriatic Sea.

Get Sporty - The summer activities comes in many forms. Besides the more established water sports like diving or canoeing, popularity is growing in stand-up paddle surfing, to which is easy to learn and

Make an excursion - An unforgettable boat ride through the Kornati Archipelago, visit to a natural phenomena

Preko

Preko is the road and administration centre of the island of Ugljan, situated, as the name states, opposite Zadar. Its old centre consists of typical Dalmatian architecture and numerous patrician family summer houses. The best way to feel the Mediterranean atmosphere is by walking along the quay or sipping a favourite

drink on one of the terraces with a view of the Zadar Channel. Only about 80 m from Preko lies the idyllic islet of Galevac (Školjić), covered with dense Mediterranean vegetation that shelters the 15th century valuable monastery of Franciscan friars of the third order. Its sandy beach makes it a popular swimming sight. The nearby cove rightfully carries the blue flag – a symbol of clear sea. The 11th century Romanesque church of St. John is situated on the eastern side of the locality, near the ferryboat landing.

To the west of the Preko lies the sandy Jaz Beach. The beach is family friendly and kids can play here in the shallow waters as well as on the playground ashore. The "Blue Flag" also flies on the Jaz Beach, which is awarded for exceptionally clean beaches in Croatia. The beach is also suitable for wheelchair users and disabled guests. The beach has showers, changing rooms, toilets, lifeguards, a beach volleyball court and a water slide. You can relax on the lawn and benches which are partly shaded by trees. The waterfront promenade is lined with ice cream parlours, restaurants and bars.

Kali

Kali is the place of the most famous fishermen on the Adriatic, who have shown their fishing abilities and seamanship on the world's seas. It is exceptionally particular because of the two little ports that are full of fishing-boats and fishermen who are on the pier, occupied with

patching up their fishing nets. Kali is also known for the speech that is being used there, which is full of diphthongs, olive growing, fishing and general life on and with the sea, and people full of temperament, who fill many of their friends with enthusiasm. The old core of the town consisting of little narrow streets and houses made of stone in the Dalmatian style is situated on a hill, from where one can see a beautiful view of the surrounding area.

The popular sand beach Batalaža is located in the Batalaža Bay in Kali and can be easily reached by car or bicycle. The shallow shores are ideal for small children who can swim here securely and without worries. The beach is also popular with older people, singles and young people. Parking spaces are available as well as a beach bar, restaurant and water polo.

Kukljica

Kukljica is a picturesque tourist and fishing village on the island of Ugljan near Zadar and the island of Pašman, well connected to the mainland by car or ferry. With a small marina, situated in a picturesque bay, Kukljica is a modern tourist resort offering excellent accommodation in well-designed rooms and

suites in private houses and in tourist village "Zelena punta". Attractive sandy beaches shaded by centuries-old pinewood, Sabuša, Kostanj and Jelenica, can be found on both sides of the island. In the cove Kstanj there is a valuable historical monument, the renewed old church of St. Jerome from the 13th century.

To the southwest of Kukljica, about 1.2 km from the centre, is the Sabusa Beach embedded in a fantastic quiet bay. The idyllic beach can be reached after only a 20 meter walk from Kukljica and despite having no tourist infrastructure, offers its guests gorgeous sandy seabeds, crystal clear waters and gently sloping shores instead, which is why it is very popular with families with children and nonswimmer. The shore area is paved over a large area and is, therefore, well suited for sunbathing. Many trees provide shade. Some benches and a small lawn area provide an outlet for the kids. In addition to families lovers and general peace-seekers like to romp about here. The beach is within walking distance. Parking is available on the main road.

Ugljan

Ugljan is the largest village on the island and is situated on its northwestern side, 11 km from Preko. It is divided into nine hamlets (Čeprijanda, Lučino Selo, Batalaža, Sušica, Gornje Selo, Muline, Guduće, Fortošćina, Varoš) that lie between many idyllic coves and colourful ports. The economy is based on agriculture, wine growing, olive and fruit

plantations, fishing and tourism. Monuments from the Early Roman period, Villa rustica, late antique mausoleum, remains of the old Christian basilica and monumental oil mill from the 2nd century AD in the cove of Muline, testify to the early human presence in this area and make this village most popular for visitors. Those who like swimming will be amazed by the beautiful sandy beaches, the loveliest of which are those in the coves of Činta, Mostir and Južnja Luka. There are several restaurants in Ugljan that offer domestic cuisine in beautiful Mediterranean surroundings.

In a small cove northwest of the small port of Ugljan you will find the Monastery of Saint Jerome which sits directly on the border to the public sandy Mostir Beach. This beach has very shallow shores and is therefore well attended in the summer season. On the waterfront promenade there is a swing for children, showers, changing rooms, toilette, beach volleyball, kids playground... The beach is also suitable for wheelchair users and disabled guests. Large trees provide shade to the west of the cove. A bar & pizzeria is located on the beach.

UGLJAN

Ugljan island is one of the most picturesque islands in the Zadar archipelago. It lies opposite Zadar from which it is divided by only few NM of the Zadar Channel. The surface of this eternally green island is covered by olive groves, idyllic coves and colourful fishing ports. More than two thousand years of traditional olive processing has left thousands of olive trees that offer oil of exceptional quality and aroma. Fishing and tourist localities extend along the eastern side of the island, among which the most well-known are Preko, Kukljica, Kali and Ugljan. The other side of the island is mainly uninhabited and steep. Most of the inhabitants of the island, around 7,500, deal mainly with olive growing, fishing and, of course, tourism. Geographical Cross-section View of the Island Ugljan lies parallel to the near mainland, it extends in the northwest-southeast direction, 24 km in length and 3-4 km in width. The total surface area of the island is 52 km, and the length of the coastline is somewhat more than 70 km. The island relief is exceptionally mountainous.
